STONE AND BOLTWOOD WIN

Lively Games May He Looked for on the Country Club's Court This Afternoon and Evening.

Yesterday's play in the Country club toproament reduced the mutches to the finals in both doubles and singles. Today the tournament will be concluded, and the fixest tennis of the season in local circles will be seen. Stone plays Bultwood in the singles, and Hatch and Stone play Ray Crosby and Avery for the first prize in doubles. The Stone-Bultwood promises some clever tennis and sostained railies, as they are both base line players, and use the "Lawford" stroke aiment entirely. This style of game makes a pretty game to witness. The chances are that Stone will win the city championship in singles, but the prospects may be upset as Boltwood developed considerable skill in the preliminaries. Judging from the play yesterday afternoon, the unubles contest will be a hot fight. Stone and Hatch form a strong combination, but th younger players, Avery and Ray Crosby. caturally have more agility and endurance, and may worst their older opposents. The games this afternoon will commence at \$15 sharp, and the confests are the best three out of five sets. There was some excellent playing in yesterday's contests, especially in the match between Robinson and James Crasby and Avery and Ray Crosby. In the preliminary round Perkins and Wishdicomb drew against Hatch and Stone. The latter is a very strong combination and their opponents were to secous of the fact. They showed marked ability in some strokes, howcharacter of their play. Stone and Hatch won two sets in succession, and

The score of the second set was 5.0. This disposed of Perkins and Widdicomb. The drawings for the second round brought to gather Hatch and Stone against Boltweld and Dickinson, and James Crosby and Ben Robinson against Avery and Eas Crosby. The first match was a vic-tory for Hatch and Stone, but it took three sets to decide it. By sharp play-ing Boltwood and Dickinson took the nest set by the following score: Sold and Dick's 0 0 1 1 1 1 0 0 1 1—6 Hatch and Stone I 1 0 0 0 0 1 1 0 0—4

The "nostrums infernal" are only kept for human gargeyles. Among the most prominent professors of the new curntive age are Drs. Darrin. Wondrous to relate, they are especially successful in curing all pervous chroule and private diseases, such as Loss of Manhood, Blood Taints, Syphilis, Gleet, Gonorrhees, Stricture, Spermatorrhees, Seminal Weakness, or loss of desire of sexual power in man or woman: all pecultar Female Troubles, Leucorrhoea, Displacement, etc., with little or no medicine. The certificates of cures made by these celebrated physicians would fill a volume. They embrace every disease to which humanity is exposed. The remedies are painless, almost pleasant and infallible. Drs. Darrin are entitled to great credit for their most miraculous discoveries in the art of electro-magnetic healing. There is no curable known malady that they cannot conquer, and they will under no circumstances take a case that they cannot cure or benefit.

The following open card of a wellknown Grand Rapids citizen speaks louder than anything that we can say: GRAND RAPIDS, Mich., July 28, 1893 .-To the public: This is to certify that I have been under Drs. Darrin Electro-Magnetic Treatment for rheumatism, general nervous debility and "spitting up" with a bad cough, and could not sleep nights. I had been treated by many of the so-called leading physicians of this city and elsewhere and never received any benefit, and my money was as much as thrown away. I commenced treatment with Dr. Darrin about a week ago, and now all my troubles are leaving me. OUR BOYS' SAFETY.

A Splendid Machine That Is Offered Free for Sixty Herald Subscribers.

The Young America \$15 Long Distance Safety is made of steel and wood so combined as to secure the lightest and strongest machine. The frame and wheels are made from the best quality second growth hickory, which is selected instead of steel for these parts because it combines great strength and tough-

ness with lightness.

An all-steel machine made heavy erough to withstand the hard usage to which it is subjected is so heavy as to be a serious drawback to its universal use by young people. Again, the steel ma-chines, without the greatest care being taken to keep them clean and dry, soon become rusted and therefore easily broken; whereas a machine made of steel and wood will not softer from exposure any more than a carriage.

ctated A bickery framed and wheeled safety is not only more durable and lighter.
This but it is much more elastic, and the loss of the vibration and rigidity found in the all-steel machines makes these litera and hickory machines more comfortable for riding than any other machine made. The cushioned seat is suspended on our patented spiral spring, adjustable to varying heights and weights, and this, in combination with the hickory frame, makes the easiest possible riding mafeetly adjusted, so as to utilize the full amount of power expended, and is made so strong as to be practically unbreak-able. The patented head, found only on this machine, is a triumph of American ingenuity, and makes the wood and strel conjunction perfectly strong and firm. For these parts only the best imported weldless steel tubing is used. The rubber cushion tire is secured to the wheel rim in such a manner that it is guaranteed not to become detached or locse. The wheel bearings are a brass collar so delicately adjusted to the steal shaft as to reduce the friction to a minimum, and render the usual ball tearings superfluotes. The principle upon which they are made is the same as is used in constructing heavy machinery, where the greatest amount of work must be seenred from the least ex-penditure of power. The entire machine s finished with a heavy coat of glossy black enamel, making a finely finished solid surface, which, when lightened up by its delicate striping and nickeled head frame, makes a most beautiful machine, which for tasty appearance as well as contive durability and general wearing qualities in absolutely unexcelled, if equaled, by any machine offered. The quality of materials used and the workmanship are fully guaranteed in every particular. Read The Heasto's
